

EXTREMELY CONFIDENTIAL

STRATEGIC PARTNERSHIP PROPOSAL

Powering the World's First and Largest EU-India Trade Finance Agreement

THE OPPORTUNITY

EU-India bilateral trade exceeds \$200B annually and is growing 10-15% year-over-year. Yet a \$400B+ trade finance gap remains underserved by traditional banking. LUX has built the origination platform, deal pipeline, and operational infrastructure to capture this market. What we need is a world-class EU investment bank to serve as our exclusive underwriting partner.

WHAT WE'RE PROPOSING

We want you to spin off or dedicate a specialized investment banking unit to serve as the exclusive arranger and underwriter for all LUX transactions across the EU-India corridor. This means:

- Full underwriting authority on Letters of Credit, guarantees, trade instruments, and investment SPVs
- Credit governance leadership and risk framework design
- Distribution capability for institutional investors across the EU
- Joint venture structure with Shah's family as co-investor/partner

THE ECONOMICS: 50/50

Simple. Fair. Transparent. All fees split evenly:

YOUR BANK'S 50%	LUX FUND'S 50%
Year 1: \$150-200M	Year 1: \$150-200M
Year 2: \$400-550M	Year 2: \$400-550M
Year 3: \$600M-1.1B	Year 3: \$600M-1.1B
3-Year Total: \$1.15-1.85B	3-Year Total: \$1.15-1.85B

WHY LUX

Backed by the Shah’s family, we have the institutional credibility, regulatory standing, and distribution to make this JV a market leader. Your underwriting capacity combined with our origination machine creates something neither of us could build alone.

WHAT LUX BRINGS

- Luxembourg-domiciled platform ready for institutional transactions
- Exclusive pipeline of EU/India counterparties under NDA
- Full KYC/AML/CTF compliance infrastructure
- Experienced leadership: HRH Cyrus Pahlavi (President) and Mr. Zach Kelling (CEO)

NEXT STEPS

1	NDA & LOI Execution — Formalize partnership framework
2	Subsidiary JV Formation — Spin off dedicated underwriting unit
3	Pilot Launch — Deploy capital and demonstrate platform efficiency
