Lux × Local Partner — Ecosystem Registry

Canonical list of named Lux ecosystem partnerships. Every partnership is governed by the Lux × Local Partner Strategic Partnership Agreement template (template/), customised per counterparty. All share the **50/50 net partnership revenue above documented costs** commercial structure, Delaware governing law, and Wilmington AAA arbitration.

Partners interoperate via the Lux backend (bankd, treasuryd, forexd, brokerd, aml, bridge, kms, mpc) and the @luxfi/brand white-label tenant override mechanism.

Adding a new partner

1. Copy `template/Lux_LocalPartner_Strategic_Partnership_Agreement_TEMPLATE.docx` into a new `<partner-key>/` subdirectory.
2. Fill in counterparty fields (legal name, jurisdiction, registered office, ID, business description, license-stack rows).
3. Append the Annex B — Lux Ecosystem Cross-Reference (the generator at `/tmp/agreements/append_ecosystem.p` does this automatically).
4. Assign a reference number OG-SP-2026-`<short>` and add an entry to this registry.
5. Commit + push.

Confidentiality

All per-partner agreements are confidential between Lux Industries Inc. and the named counterparty. The SFPB integration brief (`partnerships/sfpb/sfpb_integration_brief.pdf`) is **CONFIDENTIAL — pre-decisional**. Do not distribute outside the bilateral relationship.

This file itself is internal to `luxfi/legal` (PRIVATE repo).
